

aboutus...

Years ago while attending a friends wedding, an idea came to me that eventually led to the founding of our company. As I watched the frenzy of activity surrounding the bride and groom on this, their most special day; my mind drifted back to the day I married my lovely wife almost twenty years ago. A day that feels like it was just yesterday every time my wife and I sit down to look through our wedding album or watch our wedding video.

My reminiscing was cut short when I noticed that they didn't have a videographer. I thought that maybe they didn't see the value in it, or most likely it may not have been affordable after all of their other wedding expenses. Either way, I knew in my heart that as wonderful as their pictures may be, that they wouldn't help them remember the funny joke that the Maid of Honor told prior to the ceremony, or the way that the Best Man pretended to have misplaced the ring.

It occurred to me that people would likely see the value in being able to get both their pictures and a video for what they would sometimes have paid just for one of these important services. So from that day forward, my goal became to develop a company that would do just that. I am honored to say that over the past several years I have been able to recruit a talented team of like minded creative professionals. Each member of this team shares a common focus: to deliver the utmost in quality, creativity, and customer service to our valued clients. So on behalf of our entire team—leave your memories to us and just....enjoy your wedding!

“ Thank you so much for making our wedding day "The Sweetest Day." Everyone who has seen our wedding photos has been so impressed. I'm so very happy we went with Silver Lining! Thank you for everything!
 Oh! Also, I wanted to let you know how wonderful our guests thought your videographer and assistant were! We still hear from guests, how professional you all were! Thank you!!!
