

THREE PRINT OPTIONS

SATIN LUSTER PAPER \$

High quality 11 mil 300g high quality paper with excellent ink retention characteristics and color gamut. This paper maintains a beautiful satin finish and provides an elegant texture consistent to that of a traditional dark room print. Images 20x30 and larger are rolled and shipped to you in a sturdy tube container.

EXCELLENT QUALITY

ALUMINUM FLOAT \$\$

The float is a simple and effective way to display your aluminum print. The hanger floats your print 1/2" off the wall and has a hole at the top for secure hanging. Rubber bumpers on all four corners stabilize the print when hung.

For prints larger than 16x24 the back of the aluminum is reinforced with a 3/4" rigid board. This eliminates possible bowing of the metal on larger images. The rigid back is black and has a steel reinforced hole for easy hanging right out of the box.

SUPERIOR QUALITY

ALUMINUM EUROFRAME \$\$\$

The Euro frame adds a distinctive finished look to your print. The frame is 1.3" thick and comes in brushed black anodized aluminum. A hanging wire is preinstalled so your print can be hung right out of the box. Rubber bumpers are applied on each of the back corners.
