

HOW TO LOOK YOUR BEST

Clothes & Accessories

Bring it all! Casual, formal and in-between. Remember shoes, jewelry, and accessories for each outfit. Don't forget that your images can represent all seasons despite the temperature outside. Try to have summer, winter and fall clothing to ensure you get a variety of looks and to go with all the varied background choices.

Choose clothing that you feel comfortable in, and flatters your figure. Make sure to include what you can't live without right now: a favorite tee, hoodie, jeans, hat, sunglasses, uniform, formal dress or shirt.

Polish your nails (or make sure they are clean, haircuts a week before look best, and be careful of suntan lines. Bring some long sleeve options. These will keep the focus on your face and not your shoulders or arms.
