Timing. Lighting. Patience. Waiting for just the right moment. There are many elements that go into creating that once-in-a-lifetime photograph.

Paul Schaapman has been studying photography for many years. Over the years Paul has developed an eye for pictures. Often seeing the picture before it happens. Born in Toronto, Canada, Paul considers himself a southerner by choice, making his home in the Richmond, Virginia area. He started a photography business while still a teenager. Photographing weddings, concerts, just about everything. Paul used Nikon equipment then and developed and processed everything himself. Paul has experience photographing:

- Weddings
- Sporting Events (shooting sports, basketball, baseball, etc.)
- Family Events
- Corporate events
- Portraits
- Babies
- Wildlife
- Macro photography

Paul switched to all-digital photography in 1998. Now Paul uses all Canon professional digital cameras. Great care is taken to ensure that no equipment failure prevents Paul from capturing your special moment. The services offered by Schaapman Photography can be tailored to your specific needs. Give us a call and we will set up an appointment to meet.
