## HEADSHOTS

Most headshot sessions for one to two people take 20-30 minutes and can be done in studio, or at an area very near studio. It is recommended that you bring up to 3 shirts for variety. Try and stay away from pure white or pure black. Cremes, Greys and most colors work well. A few different lighting set ups and background choices will be used. You'll typically receive from 8 - 15 images for your use and should receive your images within 3-7 days from the time of session.

## SENIOR PORTRAITS

Typically, senior portraits are done outdoors in an area with both natural and urban or architectural element settings unless a desired location type is expressed by the client. Studio is available for a portion of sessions if you are wanting any studio shots.

Most senior sessions go from 30 minutes up to an hour and 15 minutes. Please feel free to bring up to 4 outfit changes for the session. Shooting times are best an hour or two before sunset but mid-morning can also work.

Wear what you like and what represents your personality. Its recommended that you stay away from too much pure white as it is sometimes hard to expose for and can often wash people out. Bring any accessories or personal props you like.

The image chosen for your yearbook will receive full retouching and will adhere to what guidelines your school has for submission. You should receive your images within 4-10 days from the time of session.

## MATERNITY

Maternity sessions can be done outdoors or in studio. Studio sessions are mainly just for the pregnant woman, while outdoor locations work best for couples or full family maternity sessions. Most maternity sessions run from 45 minutes to an hour and 15 minutes.

How modest you are and how much belly is shown is your choice. Its helpful to bring a bandeau bra or two and yoga pants and long skirts work well also. Retouching is available for issues with belly marks and stretch marks etc...

You should receive your images within 4-10 days from the time of session.

## BOUDOIR, GLAMOR AND FASHION

These sessions are typically done in studio but can be done outdoors or at other location as well. Most sessions run from 45 minutes to an hour and 15 minutes.

How modest you are and how much skin is shown is your choice. Feel free to bring up to 4 outfits. Retouching is available for issues with skin and stretch marks etc...

Images may be used on websites and marketing etc. Photographer keeps image copyright, however, special considerations are made to protect identity of the client. A model release may be required.

You should receive your images within 4-10 days from the time of session.
