What more could you ask for on a wedding photography collection?

digital collections

Some of our clients ask us “What if I just want the digital files?” While we strongly encourage all of our clients to order prints and albums, we understand that for some it’s either not in the budget or it may not be something that they even want. For that reason we offer “digital collections”. These collections include digital files of the wedding day images on a digital download or a USB drive and one or two complimentary prints. You can still order additional prints or albums a la carte later if you wish.

Digital One Hour Collection starts at \$1500 and gives you one hour of photographic coverage. This package is designed for someone who only needs a quick formal session in between the ceremony and reception or a ceremony only. It includes the high resolution digital images of the wedding day and one 11x14 Custom Portrait of your choosing after the wedding.

Our **Digital Unlimited Collection** is \$2600 and gives you unlimited photographic coverage on your wedding day plus a second photographer for the ceremony and formals. This collection also includes one 11x14 Custom Portrait of your choice after the wedding. Engagement and/or bridal sessions are not included but can be added a la carte. You may also add on prints or albums a la carte after the wedding.

tips & pointers

Communication is key. We are here for you and to make sure that you are happy with your photographic experience. We highly recommend keeping in touch with your photographer about your schedule to make sure that we can get everything that you expect on your wedding day.

Amazing wedding images take time. Make sure to leave enough time before and after the ceremony to get great photos. Don't overschedule your reception to the point that you can't step out for a few minutes when the light is perfect to get a few more incredible images of the two of you together. Also make sure to include the people who are most important in your life in the formal photo session, grandparents, parents, favorite cousin or friend, children, etc.

Make sure to eat a healthy breakfast and bring water bottles and a snack in your makeup go bag. You could be standing for a long time so it's nice to have something close by if you feel dizzy or need a little pick me up.

If you use a professional makeup artist for your wedding make sure it's someone who understands you and your preferred style. Wedding day photos are not something you can retake if you don't look like yourself. Find out how long they need and then add some extra time in case things take a little longer than expected.

bridal packages

There is nothing so elegant as a photo of a bride in the wedding dress. Most brides spend more time choosing a dress than they do on any other part of their wedding. For many it is perhaps the most beautiful and most expensive dress they will ever own. That is why we absolutely love photographing the “bridal session”. Usually taken 2 to 4 weeks before the wedding, it’s a great rehearsal for the hair and makeup and to make sure that the fit of the dress is perfect for the wedding day. Bridal sessions are included in most of our wedding album collections but can be purchased a la carte or even solo. We can do bridal sessions in Don Polo Photography Studio and Gardens or a location of your choice.

The **Basic Bridal Package** starts at \$500 and includes a studio or location session. A custom portrait up to 16x20.

Our **Extended Bridal Package** at \$1000 includes a studio or location session. You may include the groom in this session if you want to. It also includes a custom portrait up to 20x24. Up to 10 gift size digital files printable up to 8x10 are also included.

The **Deluxe Bridal Package** is \$1500 and also includes a studio or location session of the bride and/or the bride and groom. This session also includes a custom portrait up to 20x24. High resolution digital files of the entire session are also included in this package.

engagement

Engagement sessions are primarily to be able to produce a great looking wedding announcement or invitation. We can help you custom design the perfect announcement and make it your own. Even if you don't need the images for an announcement, it is still a great idea to do an engagement session. It is a wonderful opportunity for the photographer to get to know you better and for you to get comfortable with our personalities. We can teach you tips for better posing which will make the wedding day photos easier and faster.

Our **Basic Engagement Package** at \$800 includes a studio or location session. This package also includes a custom 11x14 portrait and a retouched file for your announcement or invitation and up to 10 gift size digital files printable up to 8x10.

The **Deluxe Engagement Package** is \$1200 and also includes a studio or location session. This session also includes a custom portrait up to 16x20, a retouched file for your announcement or invitation. High resolution digital files of the entire session are also included in this package.
